

To Enable QuickBooks® Web Direct Connect:

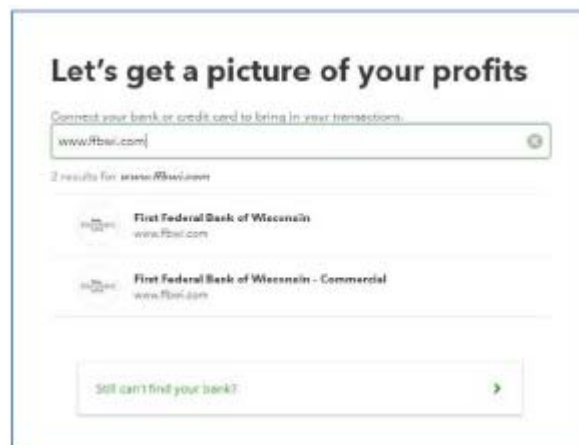

Open QuickBooks Web in your internet browser and go to **Banking**.

Click the button for **Link account**.

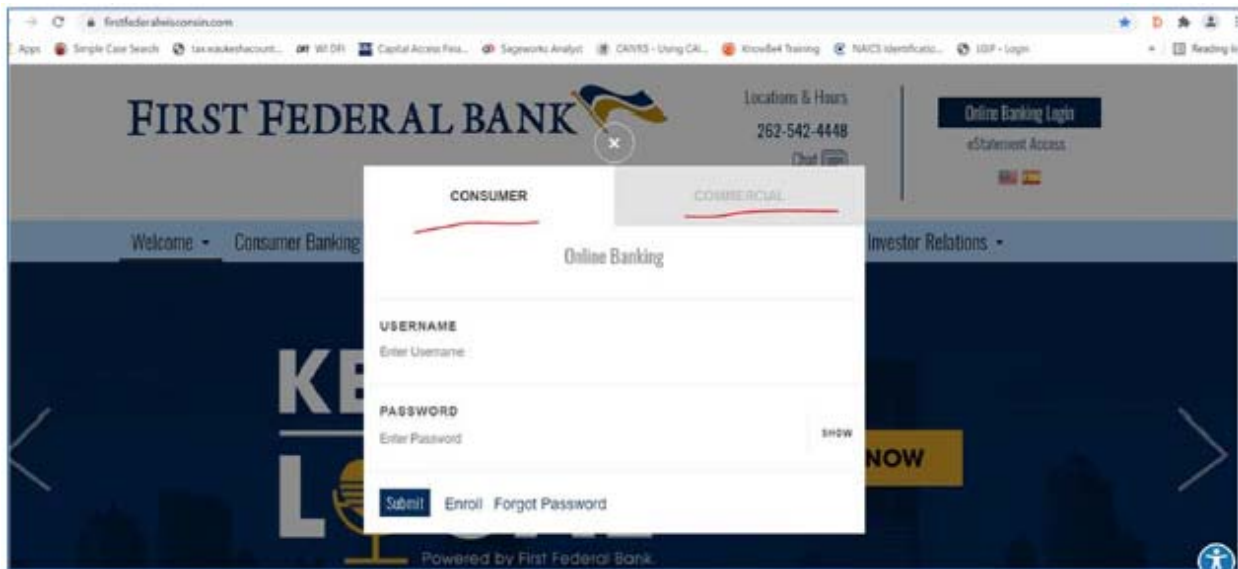

Input our website – www.ffbwi.com.

For Consumer Online Banking, select the first option: **First Federal Bank of Wisconsin**.

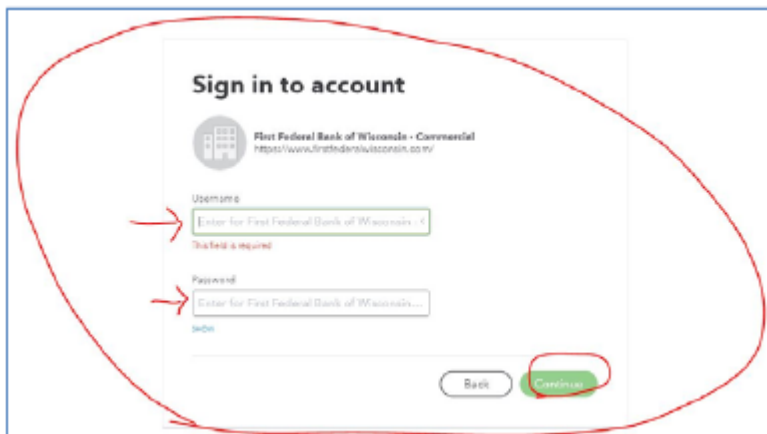

For Commercial Online Banking, select the second option: **First Federal Bank of Wisconsin – Commercial**.

If you are unsure which online banking platform you are on, check your understanding here:

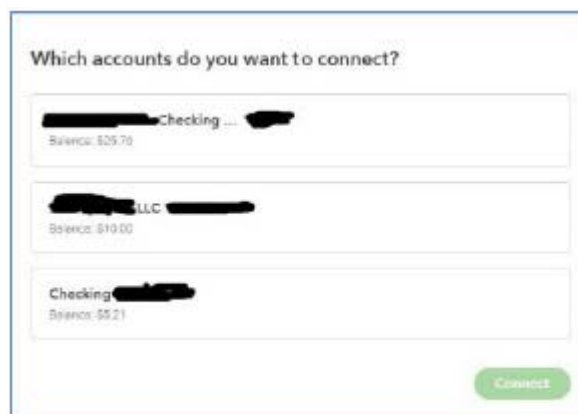

Enter your Online Banking credentials (Business Online security tokens will not work) and select **Continue**.

If you are a Business Online user and have a security token, please contact Michael Berry at mberry@ffbwi.com or Froylan Dominguez at fdominguez@ffbwi.com for a separate credential.

Choose which account(s) you would like to add and select **Connect**.

Indicate the type of account(s) and select **Save and Close**.

Indicate what date range you want to pull transaction history from and select **Connect**.

You have successfully enabled QuickBooks Web Direct Connect. 😊

To Manually Download Transactions:

Go to your Banking tab and select the account you want to update. Click the Update button and enter your Online Banking credentials.
